**Location:** Georgia, USA

“SyteLine has revealed many of our problems, allowing us to solve them and get a whole lot better at what we do.”

— Bob Cheek,  
IT/ERP Manager, Metcam

## About the company

Metcam is a precision fabricator of custom sheet metal products for industries such as telecommunications, HVAC, electronics, food service, and others. Supported by mechanical and electromechanical assembly and logistics programs, Metcam’s advanced metalworking capabilities include laser cutting, punching, forming, hardware insertion, welding, powder painting, silkscreen, and assembly. Metcam, an ISO 9001:2008 and 14001:2004 registered company, proudly serves a world-class customer base and is the recipient of environmental awards and recognitions.

## Challenges

- End-of-life legacy product with no technical support, updates or integration capabilities.
- Poor production cost visibility, tracking costs and labor.
- Inability to customize data and view reports.
- Poor scheduling module.
- Numerous manual processes, including order entry.
- Absence of necessary product add-ons and enhancements.

## Benefits

- Robust, flexible product with ability to easily add a variety of new features, as well as increased stability with continuous updates and long-term tech support.
- Improved scheduling, planning, and tracking costs resulting in more on-time deliveries.
- Enhanced efficiency of quoting, shipping, billing, and tracking.
- “Slice and dice” data and reports with just a click; more accurate decision making.
- Process automation impacting productivity, efficiency, and accuracy.
- Electronic import of orders and better management of data and custom views.
- Process automation impacting productivity, efficiency, and accuracy.

“SyteLine has been around for many years, and we felt confident choosing a product with a successful track record. Plus, it offers what we really need - a support path into the future.”

— Bob Cheek,  
IT/ERP Manager, Metcam

“We needed a company and product that could grow with us...”

— Bob Cheek,  
IT/ERP Manager, Metcam
