WHY AMERICAN TIME AND LABOR COMPANY?

Employer Administrative requirements continue to rise. As a business owner your greatest challenges are finding the right people and keeping a reign on your expenses. Employer administrative threats continue to rise and having the right resources and infrastructure is not only expensive but creates enormous challenges that stretch the operating bandwidth of most small to medium sized businesses.

The roles you take on as operator, employer, planner and business developer can consume all of your resources and time. If your focus is not clear every step of the way your business suffers. Like most companies, managing employer responsibilities such as Payroll, Taxes, Time and Attendance, Workers' Compensation, Employee Benefit Programs and HR compliance is like a stroll through a mine field. One wrong step and it could be a fatal blow to your business. Nothing impacts your personal financial security like the burden placed on you as an employer.

American Time and Labor Company delivers a fully integrated workforce management solution on our cloud based platform. Our powerful, multi-solution service platform is configured to meet the needs of any sized business in multiple industries. Nowhere else will you find such a powerful combination of workforce management solutions that help your company control labor cost and keep compliant with all of the employer related responsibilities.
