PCG
SUSTAINABILITY. NOW.

Making ERP deployment easy, fast and effective.

PCGSERVICES.COM

ENABLING SMALL & MEDIUM ENTERPRISES.

Bridging the gap between requirement and business sustainability for small and medium enterprises through scaled advisory and deployment done right.

THE SME CHALLENGE.

Traditionally small and medium enterprises have been unable to have the benefits and advantages of an enterprise-class business platform and best practices due to cost, complexity and disruption to ongoing operations.

As a result most SME companies have missed out on the advantages of:

- Increased business agility
- Better business control and insight
- The ability to scale and grow as needed
- Automation for cost savings
- Integrated business and customer experiences
- The power of best-in-class processes

INDUSTRIAL ERP FOR SMEs.

PCG VELOCITY™ solves the SME challenge by delivering industrial strength business technology, scaled to meet the timelines and budgets of small and medium businesses. Get all the advantages you need such as:

Increased Business Agility:
- Industry specific capabilities and best practices
- Automated, machine-learning-based processes
- Real-time, embedded analytics
- Automated, company-wide processes

Better Control and Insights:
- A scalable, cloud-based platform
- Integrated business intelligence
- Integrated company information
- Fast, cost effective deployment

Ability to grow as you need to:
- Streamlined end-to-end processes
- Agility to quickly adapt to new opportunity
- Real-time analytics to improve profit and efficiency
