

SUSTAINABILITY. NOW.

WHY PCG?

PCGSERVICES.COM

TO SOLVE THE BUSINESS SUSTAINABILITY PROBLEM

In a world of constant business, market, technology and customer change ensure you have a sustainable business platform you can count on to succeed and lead.

CURRENT REALITIES.

According to numerous surveys regarding business transformation efforts:

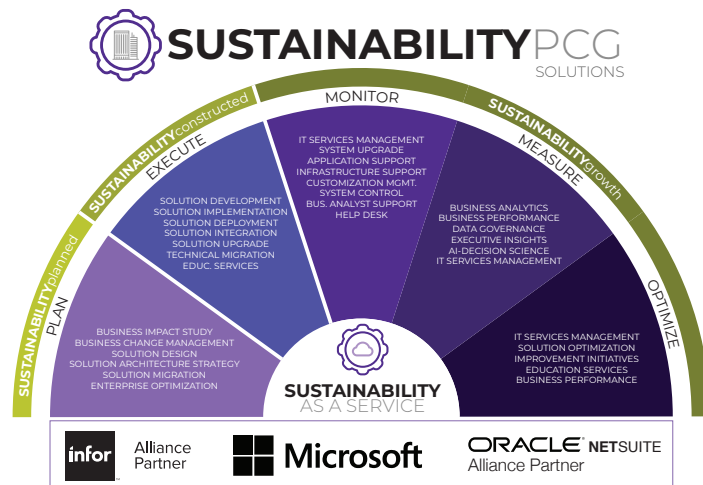

- Current business models won't survive: 92%
- Failure rates of change programs: 70-80%
- Success rates of IT implementations: 29%
- Project time slippages: 73%
- Unable to measure any value: 70%
- Lack insufficient skill or experience: 52%
- Dissatisfaction with outcomes: 75%

Such realities point to a large problem. That is, how to successfully negotiate digital transformation and ensure business sustainability for the future?

What's your experience?

WHY PCG?

PCG offers the only client-proven, field tested business sustainability solution in the market.

THE PCG ADVANTAGE.

PCG clients tell us that they achieve four sustainability advantages as a result of our digital and business transformation efforts.

Our clients have **BUSINESS SUSTAINABILITY** in four ways:

OPPORTUNITY

The ability to innovate and react to a new opportunity before others.

CAPITAL

Projects that stay on-time and on-budget, allowing capital and resource predictability

PERFORMANCE

Business systems, processes, integrations, communication, workflows and information easily keep up with the speed of business.

OUTCOMES

Monetary and resource investments bring a greater ROI, leading to new opportunity and profitability.

PCG is a leader in business sustainability through digital transformation and technology platforms that deliver greater business velocity and innovation to solve business challenges—today and tomorrow.
