

BWISE

**A Full ERP Solution
for Warehouse
Management and
Distribution**

Introduction

Distributors face a myriad of challenges in today's dynamic business environment. Supply chain disruptions, intense competition, and labor shortages make it increasingly difficult to deliver products and services promptly. BWISE technology is a comprehensive distribution solution that integrates SAP Business One and WISE WMS to streamline distribution operations and improve overall efficiency. This brochure provides an overview of the BWISE solution, its benefits, and deployment options.

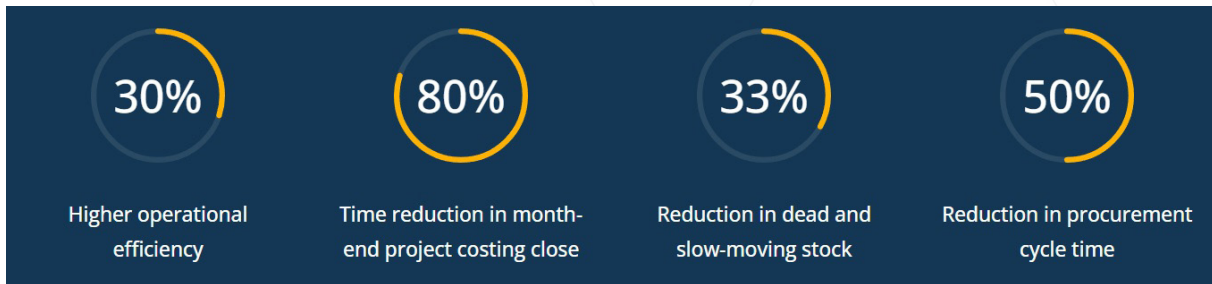

BWISE: The Perfect Combination

BWISE is the ideal solution for businesses looking for a comprehensive distribution solution. It combines the #1 ranked ERP solution, SAP Business One, with the leading warehouse management system, WISE WMS, to offer an end-to-end solution. With BWISE, you get the power of SAP Business One, including accounting and financials, purchasing and operations, sales and services, production and MRP, distribution, and warehouse inventory management. You also benefit from the powerful warehouse automation capabilities of WISE WMS, which enables tracking, automation, and optimization of your warehouse operations. BWISE is a true world-class end-to-end solution.

Flexibility and Functionality

BWISE provides deployment options that cater to different business needs. You can choose a cloud-based ERP, an on-premise solution, or a hybrid solution. In an increasingly dynamic world, BWISE offers the flexibility and functionality that businesses need. The solution also provides comprehensive vertical solutions such as 3PL software, yard management software, moving company software (WISEmove™), and mobility apps. These vertical solutions offer an array of features and functionalities that enable specific businesses to meet their unique requirements.

Why Choose BWISE?

<https://b1bwise.com/>

BWISE helps you maximize efficiency, reduce costs, and ultimately increase profits. The system requires minimal setup and little IT overhead, making it an ideal solution for any growing business in need of a complete distribution and ERP system. With BWISE, you can easily manage your entire organization with an intuitive, easy-to-use interface that gives you a fast, efficient, and accurate way to run your business. You can also improve your warehousing and inventory management operations, view, gain insights and analytics, and manage yard facilities and transportation execution activities as integrated operations.

Our Experience and Industry Knowledge

Our experience and industry knowledge speak for themselves. For more than 30 years, we have been in the distribution and manufacturing industry. When we walk your warehouse or your shop floor, we know your business! We speak your language! We understand your needs! Our team of experts is ready to help you get the most out of your distribution operations. Whether you're new to the industry or looking to upgrade to a more powerful solution, BWISE is here for you.
