

Spoke® Learning Technology Platform

Built for simplicity and engagement, Spoke elevates learning experiences with access to bite-sized training that makes learning fun, memorable, and impactful—making it easy for employees to learn, grow, coach, and measure their skills.

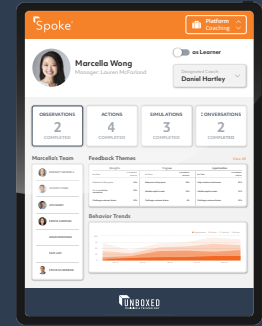

EVERYTHING YOU NEED, NOTHING YOU DON'T

- Self-directed personalized learning and practice
- Social and collaborative learning
- Security and scalability
- Continuous coaching
- Intuitive configuration and customization
- Simplicity and speed

Spoke can integrate both your existing training or our custom content with practice simulations and coaching feedback to make continuous practice a natural part of the workday.

CUSTOMIZABLE LEARNER JOURNEYS

Create personalized learning paths that combine proven micro-learning methods with an engaging milestone map to track progress.

MEASUREMENT THAT MATTERS

Make sure your learners are on track and compliant in the areas that move the needle for your business.

DATA-DRIVEN COACHING

Empower coaches with insights to help foster Skill Agility™ through high-impact engagements and feedback loops.

PROGRESS OVER PERFECTION

Drive personal and team growth over time by identifying trends, areas of opportunity, and skill gaps.

Word on the street

“Spoke has led to increased performance for every team member. They connect with each other in the community, and tell me they can’t wait for more training to earn coins!”

DIRECTOR OF RETAIL CHANNEL MANAGEMENT
COMCAST

“Spoke is extremely user friendly and allows the trainee to easily navigate through the modules.”

DIRECTOR OF COMMERCIAL SALES
GLAXO SMITH KLINE

Don't forget about the content

CUSTOM TRAINING

For a one-of-a-kind training experience, we can create content for your specific organization. We partner with your subject matter experts to create action-oriented solutions that learners are excited about.

TURN-KEY TRAINING

Need content now? ReadySet Training™, our turn-key, semi-customizable training, is easy to deploy and can accelerate learners to develop and master foundational skills.
