VisMobile Warehouse Management System
Execute Shop Floor Transactions using Mobile Devices

Warehouse Management System (WMS)

Visibility WMS is a real time web application that enables shop floor transactions to be run on any hand-held device.

It links the warehouse and shop floor to the Visibility ERP system and empowers manufacturing employees. Manufacturers seeking agility and efficiency on the shop floor benefit from WMS as they experience improved inventory accuracy, better data integrity, and increased cycle times on the shop floor. WMS automates mobile operations through the use of RF devices or any browser enabled device.

Visibility WMS is made easy with on screen prompts, automatically populated data, and preprinted bar codes, which eliminates manual data entry. Visibility WMS is a flexible and adaptable application that stays current as technology changes.

Architecture and Technology
»Device and browser independent
»Keyboard wedge devices, hand-held devices, and scanners

Benefits
»Increases mobility and convenience
»Improves employee productivity
»Improves inventory accuracy and collection efficiency
»Reduces labor costs
»Reduces inventory costs
»Reduces data entry errors
»Higher employee and customer satisfaction

Key Features
»Mobile inventory data collection
»Bar code scanning for major transactions
»Easy to use with on screen prompts, automatically populated data, and preprinted bar codes, eliminating manual data entry
»Touch screen "kiosk" style user experience
»Generates custom product labels
»Real time capture of shop floor transactions
»Flexible and adaptable application that stays current as technology changes

Execute Shop Floor Transactions using Mobile Devices

Increase Accuracy And Efficiency Of Shop Floor Transactions

Manufacturing demands efficient, accurate, and timely reporting from the shop floor.

Manual entry of shop floor transactions significantly slows the manufacturing cycle time due to the labor involved, paperwork created, and likelihood of inaccurate data entry. Users have the ability to use a wireless bar code scanner and other mobile devices to execute various transactions in VisMobile WMS, making data entry quick, easy, and accurate. Industry leading manufacturers require a first class WMS system and turn to VisMobile WMS.

Featured Transactions

» Purchase receipts
» Material request fulfillment
» Work order moves
» Incoming receiving
» Inspection results
» Cycle count
» Physical inventory
» Material request
» Inventory labeling
» ASN receipt
» Warehouse and location transfers
» Move and labor tickets
» Paperless kanban fulfillment
» Material issue
» Daily receiving

About Visibility

Visibility Corporation is a solutions company working towards the singular goal of enabling our manufacturing customers to achieve operational excellence. We provide a modern, flexible, fully integrated enterprise resource planning solution designed specifically for manufacturers of complex products. Our more than 30 years of experience with our customers' unique requirements in the manufacturing industry are built into our Visibility ERP solution. We develop, implement, and support Visibility ERP ourselves, eliminating 3rd parties. We embrace and excel at customizations because we believe your ERP solution should work for your business, not the other way around. As a family owned and operated business, we treat our customers as a part of our family. With a deep understanding of the manufacturing industry, Visibility ERP provides manufacturers with visibility into their business operations, allowing for enhanced performance and increased profits. It's a simple solution for complex manufacturers. For more information, connect with Visibility or visit www.visibility.com.
