Visibility Business Intelligence
Competitive Intelligence for Better Decision Making

Visibility Business Intelligence (BI)

The purpose of BI is not to answer common questions, but instead to uncover new questions and find answers to those questions. Visibility's BI Analyzers transform unrelated, detailed information from one or more disparate business applications into meaningful, business focused intelligence.

Visibility BI provides you with the tool set for tailored reporting and analytics, thereby allowing you to control the information you see and need precisely at that moment.

Benefits

»Provides consistent data across the organization so users can spend less time reconciling differences
»Provides powerful analysis for intuitive assessment of business information
»Reduces workload and impact on transactional systems
»Improves quality of information
»Facilitates data consolidations
»Quickly consolidates and converts data into customized, eye-catching readable formats

Key Features

»Access and analyze key business data to make informed fact-based decisions faster
»Empowers users with tools to identify trends
»Utilizes software tools you already own, but are not fully deploying
»Out of the box dashboards provided
»Our proven implementation methodology yields quick wins and a fast ROI
»Performs ad-hoc analysis using simple drag and drop functionality
»Empowers users to access, analyze, and collaborate
»Can be used in conjunction with one or more systems and can be modified to meet your company's specific requirements

Access and Consolidate Data to Analyze Business Performance

Visibility's BI Analyzers transform unrelated, detailed information from one or more disparate business applications into meaningful, business focused intelligence. These tools provide a predefined set of metrics which enable end users to analyze business data from numerous reporting perspectives. Visibility BI provides you with the tool set for tailored reporting and analytics, thereby allowing you to control the information you see and need precisely at that moment.

BI Solutions

» Quoting

» Project Accounting

Visibility's BI Offerings

Visibility's BI Analyzers are designed with a best practice architecture that facilitates speed to deploy and flexibility to accommodate unique measurements for your organization. These tools provide a predefined set of metrics which enable end users to analyze business data from numerous reporting perspectives.

These solutions are easily deployed to work with your current business systems and existing IT infrastructure. Visibility's BI solutions can be used in conjunction with one or more ERP systems and/or data sources and can always be modified to meet your company's specific requirements.

Ten functional BI analyzers have been developed to provide reporting solutions across your organization. Visibility BI is the tool that allows you to create executive dashboards for your management team. Our BI offering now comes with a starter kit of pre-built executive dashboards for your use.

About Visibility

Visibility Corporation is a solutions company working towards the singular goal of enabling our manufacturing customers to achieve operational excellence. We provide a modern, flexible, fully integrated enterprise resource planning solution designed specifically for manufacturers of complex products. Our more than 30 years of experience with our customers' unique requirements in the manufacturing industry are built into our Visibility ERP solution. We develop, implement, and support Visibility ERP ourselves, eliminating 3rd parties. We embrace and excel at customizations because we believe your ERP solution should work for your business, not the other way around. As a family owned and operated business, we treat our customers as a part of our family. With a deep understanding of the manufacturing industry, Visibility ERP provides manufacturers with visibility into their business operations, allowing for enhanced performance and increased profits. It's a simple solution for complex manufacturers. For more information, connect with Visibility or visit www.visibility.com.
