

### **Who we are**

The Thinking Cap Learning Management System (LMS) targets all your training needs across all your training devices. It's easy to set up, customizable beyond anything you've seen, and totally secure. It's flexible enough to handle as many learners as you need it to – and robust enough to deliver detailed tracking and reporting on each and every one of them.

Thinking Cap LMS is delivered completely through the cloud, which means you don't have to purchase or maintain any hardware on site. This as-a-service delivery includes the LMS itself as well as training, mentorship, and support to help you deliver and track all kinds of blended learning. Our service is ideal for customers who want to have strong control over all aspects of the learner experience, have several different types of learners, such as independent learners or larger learner communities, and have complex rules for delivering their learning. Thinking Cap is an LMS for customers that want to deliver complex learning material, but also want to provide that learning in an easy-to-use system for both learners and administrators. Thinking Cap is easy to use and to set up, but is robust enough to meet all your needs when you meet the real-world requirements of modern training and compliance workloads.

### **We're a trusted source for innovative learning solutions**

Since we started in 2001, we've delivered superior learning management solutions to corporate, higher education, and not-for-profit clients on four continents. The result is that we have helped millions of learners expand their knowledge, skills, and expertise.

### **What sets us apart**

Your company represents your unique innovation. Thinking Cap spends time getting to know you and your team, learning about your vision and priorities, to help make sure our learning solution provides the service and support you need to succeed, Getting the attention you deserve.

### **The solution that's right for you**

We don't simply sell software; we partner with you to help you meet your challenges and reach your learning goals. No matter what existing systems you have, or if you have none at all, we'll find the Thinking Cap solution that suits you best and integrate it seamlessly into your learning environment.

### **Clear pricing that fits your budget**

We know that you need to get the most out of your budget. No matter the size of your business, we can provide an affordable learning solution for your business. All our pricing reflects the total cost of the LMS with no hidden prices or add-ons. What you see is what you pay.
